CLEAN UP THE LAKE

1ST TIME CONSERVATION DIVER

Curious to see what scuba diving is like before deciding to get your PADI Open Water Diver scuba diving certification? Try it out and gain a new insight into the world of conservation diving.

ENVIRONMENTAL FOCUS

Interested in learning more about the ways diving can have a positive change on the environment and the different ways you can get involved? In this class we will provide an introduction into current conservation efforts being performed by Clean Up The Lake, give you a tour of our facility and have discussions on what becoming an environmental diver is all about.

CLASS COMPONENTS

- PADI e-learning (20-30 mins)
- Use scuba gear
- Use hand signs to communicate
- Perform basic scuba skills

PADI OBJECTIVES

A highly-trained PADI® Professional will provide scuba gear, explain basic scuba diving skills and answer any questions you may have.

- Find out if you like scuba diving
- Connect with the underwater world
- Take your first breaths underwater
- Decide if you want to be a certified diver

NEW PERSPECTIVE

Get a taste of the underwater world and gain new perspective on the world and how you can help to protect it! This class may be the first step you need to realizing your passion for conservation!
